the introduction of the *Patent Self Heating Stove* for fire, which will reflect them, as a great benefit to the community. It is a new and improved kind of stove, being made of iron and brass, being made by a great saving of time and expense. This from combine, economy, convenience, saving of fuel, and deep-seatedness of heat, may be said to constitute a great and constant benefit. Hard word coal from a stove will give the same purpose. It can be used in any room, as in the open air. It is of a kind that is not only a great benefit to the community, but also a great benefit to the community, and is a great benefit to the community.

For sale, wholesale and retail, by the sole driver, who is the only Agent for Portland, Maine.

ALBERT NOY'S.
